Please tell us about your organization's mission or purpose:

Please describe the programs and services your organization provides:

Predominant populations your organization serves:

Is your organization governed or managed by a board of directors, council or committee?

If so, please list all active members:

## **PROJECT & FUNDING INFORMATION**

It is important to us that our community partnerships demonstrate a shared purpose to come together for the good of Nova Scotia, working to improve the quality of life and wellbeing for everyone within the communities where we live and work. Our goal is to support organizations and initiatives that work to build healthy and sustainable communities, increasing everyone's ability to find moments of positive connection creating a stronger Nova Scotia. Our community investment focus areas are as follows:

- **Community Well-Being** – Safety, care and connection are key to how we serve our customers and community, creating a stronger Nova Scotia. Our community environments, whether social, physical or economic, have tremendous influence over our capacity for resilience. By investing in fundamentals like food security, affordable housing and health supports, we can help reduce the likelihood of mental and physical health challenges, increasing community wellbeing and moments of care and connection.

*(continued on next page)*

- **Our Environment** - The state of the environment around us is a strong contributor to overall wellbeing. Reducing our environmental footprint and stewarding the preservation of our natural resources not only contributes to the health and sustainability of our communities but also enhances physical spaces for opportunities of care and connection.
- **Responsibility Stewardship** - Responsibility is at the core of the NSLC. As a responsible steward of beverage alcohol and cannabis sales in our province, we seek to partner with organizations that share our commitment, driving awareness and education around responsible consumption.

Name of project or initiative:

Is this a new project/initiative?

YES      NO

In what community will your project or initiative take place?

Which of our community investment focus areas does your project most align with?

Community Well-Being

Environment

Responsibility Stewardship

Give a brief description of your project's goals & objectives and how it aligns with our focus areas.

If applicable, what is the approximate total value of your request?

Describe how this funding would be used to support your project. What are the expected outcomes of this project?  
(for example: number of meals provided to community members, number of community members accessing services)

Do you have other funders involved in this project? If yes, please list.

**If applicable, please attach your project budget.**
